About Umang Foundation

Umang Foundation is a registered Public Charitable Trust and active for over 9 years and managed by working professionals in Mumbai. It was started by three IT Professionals in July 2008, who believe “there’s more to life” beyond office and home. Umang Foundation consists of more than 10,000+ dynamic professionals as volunteers spanning across various sectors including IT, Management, Finance and also includes doctors and elite senior citizens, who are enthusiastic to work for uplifting the society.

Team Umang is focused to reduce the school drop-outs in slum based and rural Maharashtra by taking preventive measures rather than stitch in the hole by providing basic stationery material. Project "Promote Education" has provided over 1.2 lakhs stationery kits (since inception) to school going children to help them to continue their studies.

Umang Foundation focuses on the improvement of society in every possible way, to achieve this goal Team Umang have organized many philanthropic events and activities including distribution of stationery kits, clothes to villagers, blood donation drives, celebration of festivals with people in old age home, celebration of special days with children and children suffering from cancer.

In Year 2017, Team Umang has already provided education material to 28,000+ less fortunate children. Umang Foundation has entered five times into **LIMCA BOOK OF RECORDS** for organizing largest stationery distribution drive in a single day.

Till date, Umang Foundation does not have any employees and is working majorly on the basis of Volunteers’ efforts and run on 100% voluntarily basis which helps organization to keep its admin cost ~1% only.

Why Water Purifier to a school

Talwade Village is situated 50 km from Shahapur Taluka which is one of the remote village in Sahyadri range. All the villagers are daily wagers in the farm fields (living by Gunagovid). This village has 200 huts/house.

This village has acute water shortage because of unavailability of bore-wall and nearby source of water. Women in the village have to walk 3-4 Kms daily to get approx 25-30 litres of water for their house hold purpose.

If water filtration unit along with storage of 20,000 litres can be setup which can suffice the requirement of 2 days for the villagers and villagers will support 100% to provide the land for this purification plant. They will also be responsible for the daily running and maintenance of the plant.

Impact of this program

Direct impact to 700-800 individuals living in this village and this will save daily efforts of 200 females who bring water from far distance for their families

Proposed Utilization of Funds

Here are the details of proposed costing:-

Sr no.	Material description	Budget /Estimate Cost (INR)
1	Two Bore well(s)	180,000
2	Filtration and Purification Plant	500,000
3	Tanks for Storage capacity (10,000 litres X 2)	40,000
4	Distribution Bottles [200]	40,000
5	Pipelines to connect bore well and Filtration plan	75,000
6	Shed for water plant with compound	200,000
7	Electric fitting	50,000
	Sub Total	1,085,000
8	Miscellaneous 5%	54,250
9	Admin 5%	54,250
	Total	1,193,500

We intend to support this village with the above mentioned water purification unit in the village to support 200 families and estimated to spend approx Rs. 1,193,500/- (Rupees Eleven lacs Ninety three thousand five hundred only) for purchase and setup as mentioned above.

Do let us know in case you need any further details on the same.
